

## Содержание

относительный выигрыш...  
материальных либо позиционных  
ценностей. Других целей нет и не  
может быть. В конечном итоге в  
шахматах этот обобщенный размен  
должен привести к выигрышу  
бесконечно большой материальной  
ценности (к мату). Работа

не размен (или вынужденное  
размена путем создания угроз) - это  
основное средство перевода игры из  
миттельшпиля в окончание. В свою  
очередь, упрощение позиции  
является важнейшим методом  
реализации перевеса. Процесс  
шахматной игры динамичен. Все  
основные стадии партии - дебют,  
миттельшпиль и эндшпиль -  
органически взаимосвязаны.  
Динамика шахматной борьбы  
заключается в том, что после любой,  
даже внешне несущественной, серии  
ходов ситуация на доске изменяется.  
Однако кроме этих постепенных  
изменений, как правило, можно  
выделить и критические, узловые  
моменты, в которые происходит  
резкий качественный скачок в ходе  
сражения. К таким критическим  
точкам прежде всего относится  
переход из одной фазы партии в  
другую. Изучение этих переходов  
является одной из сложнейших  
проблем современной шахматной  
теории. Не очевидно, что избранная в  
дебюте расстановка сил оказывает  
решающее влияние на планы сторон  
в середине игры. Хорошей  
иллюстрацией связи дебюта со  
стратегией в миттельшпиле могут  
служить различные гамбиты. В  
целом ряде гамбитных систем, где  
жертва материала носит реальный, а  
не мнимый характер, эта связь часто  
прослеживается на протяжении всей
